2. SKATE BOARD FACILITIES

This meeting had been called to listen to ideas about extending the skate park facilities from a young man from the village. He was to have accompanied the DDC Youth Officer. Unfortunately he had been unable to attend.

The skate facilities were discussed in general terms and it was agreed that Ms Mapp would contact the person concerned with a view to getting costings and for a project to extend the skate facilities.

Ms Mapp left the meeting at 6.34pm.

3. POND

Tree Work – the Clerk had received two quotes for the work recommended by the Parish Tree Warden. After some discussion it was agreed that it be recommended to full Council that all the crown lift work be undertaken by a tree surgeon at a cost of £420.

It was hoped the rest of the work could be undertaken by volunteers, either from the White Cliff Countryside project or local residents.

The meeting closed at 6.54pm.
